PRODUCTION MVP | VERSION 1.0.0 (V-1) | B2B OPERATING SYSTEM

Intelligence Sales

Enterprise Commercial Operating System & Trilingual Sales Pipeline Platform (Morocco & MENA Focus)

Document: Architecture & Feature Release Specifications

Date: October 2026

Currency: MAD (Moroccan Dirham)

1. Executive Summary

Overview

Intelligence Sales (v-1) is an all-in-one commercial intelligence web platform engineered to transform traditional B2B sales cycles. It bridges a high-converting public corporate portal with an operational CRM delivering strict commercial governance:

7-Day Inactivity Rule

Strict algorithmic enforcement ensuring zero forgotten leads. Any opportunity untouched for 7 days triggers proactive WhatsApp and Email re-engagement workflows.

7 AI Specialized Agents

Human-in-the-loop multi-agent orchestration for lead qualification, deal closing, objection handling, pricing governance, and client expansion.

MA Moroccan Market Tailored

Native formatting for Moroccan Dirhams (MAD), ICE commercial identifiers, VAT (TVA 20%), and bilingual Casablanca Marina corporate defaults.

Native Trilingual (EN / FR / AR)

Full instant translation engine across all landing and CRM modules with automatic Right-to-Left (RTL) visual mirroring for Arabic.

2. Technology Stack & Core Architecture

LAYER	FRAMEWORK / TOOL	IMPLEMENTATION DETAILS
Frontend Core	React 19 + Vite 8	Single-Page Architecture with client routing via `react-router-dom`. Zero-lag page transitions.
Styling System	Tailwind CSS v4	Customized `@theme` tokens, deep navy dark palette (`#050b16`, `#081120`), and unified `rounded-lg` container borders.
Data Visualization	Recharts Library	Interactive Revenue Trajectory (AreaChart), Funnel Stage Distribution (BarChart), and Lead Quality health (Donut chart).
State Management	React Context API	Decoupled reactive layers: `CrmContext`, `AuthContext`, `ThemeContext`, and `LanguageContext`.
Icons & Assets	Lucide React + WebP/PNG	Complete iconography with dark/light dynamic theme switching and adaptive RTL rotation.

Design System Standard (v-1): All main container boundaries (cards, tables, chart boxes, modal panels) have been standardized to refined `rounded-lg` and `rounded-md` radii, eliminating bulky 3×l corners while keeping action buttons distinct.

3. CRM Functional Modules (Commercial Suite)

Module Breakdown

MODULE	CORE FUNCTIONALITY	KEY HIGHLIGHTS & AUTOMATION
Executive Cockpit (CrmDashboard)	Executive KPI tracking, revenue trends, and AI suggestions feed.	• Actuals vs Quota vs AI Predictive Trajectory. • Stage distribution bar chart with 1-click pipeline filtering. • Dual mode: Executive Director vs Sales Rep personal view.
Deals Pipeline (CrmPipeline)	4×4 structured commercial Kanban board across 7 sales stages.	• Stages: Discovery, Qualification, Proposal, Negotiation, Closing, Won, Lost. • Compact number formatting (K / M / B MAD). • Comprehensive deal diagnosis & interactive modal inspection.
Predictive Leads (CrmLeads)	Multi-channel inbound lead triage and qualification scoring.	• Scoring categories: Hot 🔥, Warm ⚡, and Cold ❄️. • Automated reasoning notes generated for each lead. • **1-Click Deal Conversion** directly into active pipeline.
Quotation Engine (CrmQuotes)	Commercial proposal (Devis) builder with discount governance.	• Automatic VAT (20%) and margin calculations. • Strict rule: discounts > 15% trigger Director approval flag. • **Printable Formal Proposal (Devis)** with ICE & legal footer.
Follow-Up Engine (CrmActivities)	Strict 7-Day inactivity detection & multi-channel outreach.	• Identifies all deals with 7+ days without touchpoint. • Auto-drafts tailored re-engagement messages in FR & AR. • 1-click execution to WhatsApp or Email with human review.
7 AI Agents Center (CrmAiAgents)	Specialized sales multi-agent command hub.	• Agents: Lead Qualifier, Closer, Objection Solver, Pricing, etc. • Live interactive prompt console with streaming replies. • Human-in-the-Loop active governance watermark.

MODULE	CORE FUNCTIONALITY	KEY HIGHLIGHTS & AUTOMATION
B2B Account Ledger (CrmAccounts)	Corporate customer registry with credit monitoring.	• Tiering: Strategic Tier A, Mid-Market Tier B, Standard Tier C. • Credit line tracking and authorized debt thresholds. • Decision-maker directory with direct phone/email triggers.
Sales Quota & Team (CrmTeam)	Global quarterly targets and sales rep performance leaderboards.	• Real-time rep target completion percentage bar. • Calculated commissions earned and pipeline volume per rep.

4. Public Ecosystem & Landing Showcase

Public Portal

💎 Navigation & Dynamic Header

Sticky glassmorphic navbar with smooth scroll elevation, dark/light theme toggle, trilingual switcher, and direct CRM access.

🚀 Strategic Ecosystem Overview

Presents the 4 core operating pillars: Deal Automation, Predictive Intelligence, Dynamic Quotas, and Risk Governance.

🤝 Partner & Demo Onboarding

Multi-step interactive modal capturing prospective enterprise leads with industry sector and company size classification.

⚡ Differentiation & ROI Architecture

Comparison matrix highlighting how Intelligence Sales outperforms legacy ERPs and generic CRM software in regional execution.

5. Verification & Production Status

v1.0.0 Ready

VERIFICATION PARAMETER	RESULT	NOTES
Local Git Initialization	✓ Initialized & Committed	Branch `main`, initial commit `66e39d1`, clean `.gitignore` active.
Production Build (Vite)	✓ 0 Errors (862ms)	All 2,504 modules successfully bundled and tree-shaken into `dist/`.
Container Radius Polish	✓ Applied (rounded-lg/md)	Applied consistently across Pipeline, Dashboard, Team, Quotes, Leads, and Accounts.
Responsive & RTL Layout	✓ Fully Responsive	Mobile, tablet, desktop support with mirrored typography for Arabic.
